

## **WIMO INTRODUCES THE WOUXUN KG-R76 VHF AIRBAND RADIO**

Where Affordability Meets  
Exceptional Performance.

The Wouxun KG-R76 is your gateway to VHF Airband communications. This radio is crafted for those who seek unparalleled performance without sacrificing their budget.

The VHF Airband Wouxun KG-R76 sets a new standard for Airband radios. Exclusively introduced by WiMo it is the right choice for pilots, ground crews, and aviation enthusiasts.

The Wouxun KG-R76 bears the **CE certification** meaning a total compliance with stringent European standards for safety, electromagnetic compatibility, and more. Trust in a radio that meets and exceeds industry requirements.

With **5 watts P.E.P. (Peak Envelope Power)**, the KG-R76 ensures a robust and reliable signal, empowering users with enhanced reach and clarity.

Voice Operated Transmission (Vox) function for **hands-free communication** allows users to stay focused on the task while maintaining a constant connection.

The Wouxun KG-R76 offers enhanced flexibility with the optional HEO-022 headset adapter. This additional accessory allows users to connect a headset for a professional communication experience.

Built to endure the rigors of aviation, the KG-R76 boasts an IP67 certification, which means that it offers maximum protection against the intrusion of dust and water. This ingress protection rating ensures reliability in various environments. Whether for paragliding, ballooning in different weather conditions or for use by ground personnel at the airfield - this radio stands ready for any challenge.

The KG-R76 enables users to effortlessly organize and access their preferred frequencies. Navigate the airwaves with ease, ensuring every communication is just a button press away.

#### TECHNICAL SPECIFICATIONS

<b>Power</b>	5W P.E.P. typ., 1.5 W carrier
<b>Band</b>	VHF Air Band
<b>Frequency Range</b>	118 - 136 MHz
<b>Modulation</b>	AM
<b>Battery Capacity</b>	2000 mAh (Li Ion)
<b>Antenna impedance</b>	50 Ω
<b>Weight (approximately)</b>	258 g

- Voice Activated Transmission (VOX)
- IP67 Dust and Water protection
- 8.33 kHz / 25 kHz Channel spacing
- 400 Memories
- Backlit display and keyboard
- CE approved
