

The Giovannini rotators, are designed for medium and very large antenna systems and the specifications that you read below are suitable for this. Monobanders for 40 or 80 meters , large HF antennas for 20 -15 -10 m , rotating tower, stacking of antennas... and more.

This antenna rotators are designed to be installed inside a tower or beside for a rotating tower or a mast.

Torque up to 1000 Nm , all models are supplied with torsionally **flexible** jaw coupling, square flange and a 230 Vac 50 Hz 0,18 Kw electric motor ( 115 V ac 60 Hz UL on request ). The heavy duty mast clamp is supplied on request.

Smart digital control unit and separately power unit are supplied, for computer and remote control , by the internet or LAN.

### GE 4000 NS

Torque : 1001 Nm  
Kg. **74** 163 lbs

### GE 2500 NS

Torque : 625 Nm  
Kg. **38** 84 lbs

### GE 1500 NS

Torque : 220 Nm  
Kg. **27** 60 lbs

### Digital control unit

130 x 140 x H 50 mm  
5.12 x 5.51 x H 1.97 in

### Power unit

235 x 235 x H 90 mm  
9.25 x 9.25 x H 3.54 in

Specifications	Mod. 1500 NS	Mod. 2500 NS	Mod. 4000 NS

Double worm gear technology irreversible under wind load

Aluminium gear box for 1500 and 2500 models and cast iron for 4000

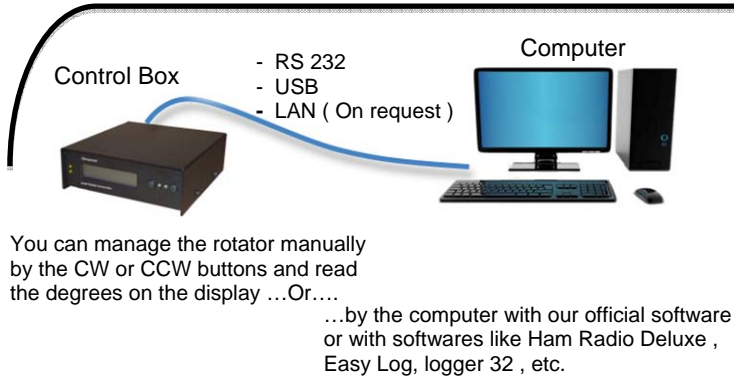

Torsionally **flexible** jaw coupling

RAL 9022 aluminium colour

Temperature range : - 25 °C + 50 °C

Totally water protection

Our official software

How managing the rotator:

- by clicking on the right or left arrow.
  - inserting the number of degrees directly from the keyboard and pressing " GO "
  - clicking directly on the preferred position of the compass rose.
- You can see the degrees in the top left of the window.  
To stop the rotator just press " STOP "

If the remote site is near and visible:

Access to a control box in a remote site

If the remote site is connected by the internet

Many rotators and control boxes

This configurations is also realizable with USB or RS232, connecting control boxes directly to the USB or D-SUB9 ports of PC

You may also use softwares like TeamViewer for remote a Control Box without LAN  
Smart Rotator Control Box is compatible with RS232-over-ethernet devices on the market.
